Senior Projects

No Senior Projects may be realized in the Barker Center building. Under special circumstances, the Director may consider a proposal submitted to the Dance Program articulating why Barker space is integral and crucial to the realization of the project. However, given (a) our limited resources and concomitant inability to support any such projects, (b) curricular needs, and (c) the pedagogical imperative of the senior seminar, the likelihood of Director approval for senior projects is low.

Technology/Equipment Access and Policy
